 - After reviewing the situation regarding the recent ballots for the CDI 4.1 and CDI EE 4.1 specifications in the committee call today, the consensus reached for Jakarta EE 11 is for the CDI project to include the integration elements of the CDI spec (CDI EE) in the Platform and Web Profile specifications. This approach follows the “In the Platform Specification” option as presented in the Integrations Strategies [document](#). The CDI

project is requested to make the required updates to prepare for the re-ballot.
